Essential cover for your small farm

**NFU Mutual**  
FARM INSURANCE

# WELCOME TO FARM ESSENTIALS INSURANCE FROM NFU MUTUAL

**You should read your policy documents carefully, to make sure the policy meets your small farm's needs and that you understand any limitations.**

This document provides a summary of our farm insurance's main features including key exclusions and obligations. It's not personalised to your individual needs in any way.

To help you make the right decision for your farm business, we've highlighted the essentials we think are important. However, your cover will depend on your circumstances and choices. Full details of your chosen cover will be provided in your policy documentation.

We recommend you keep this brochure with your policy documents for future reference.

## OUR FARM ESSENTIALS POLICY

Whether you're a farm tenant or owner, your agricultural business or smallholding can face physical risks, such as damage to essential property or livestock by fire, storm or flood. Such events can significantly interrupt the running of your business and make it difficult to maintain income and manage outgoings. Your legal liability in the event of an accident involving the public or employees, including friends and family, is another key consideration.

Your local NFU Mutual agent is on hand to work closely with you to identify and manage these challenges.

Our Farm Essentials policy, for farms up to 50ha as well as small hill farms that meet the acceptance criteria, provides a package of essential covers as standard to protect your property and liability risks. Developed in partnership with small farm owners and tenants, this policy also gives you the flexibility to choose important additional cover to protect any livestock, simple diversifications or income you rely on.

## UNDERINSURANCE

Underinsurance occurs when you don't have the right level of insurance to meet the needs of your business. If it's wrong, it could impact the amount you're paid if you make a claim. You should regularly assess how much insurance you need, to take account of acquisitions or alterations, changes to machinery and equipment, or increases in stock levels. If you're not sure, ask your agent.
