FARM INSURANCE

# WELCOME TO FARM SELECT INSURANCE FROM NFU MUTUAL

You should read your policy documents carefully, to make sure the policy meets your needs and that you understand any limitations.

This document provides a summary of our farm insurance's main features including key exclusions and obligations. It's not personalised to your individual needs in any way.

To help you make the right decision for your farm business, we've highlighted the essentials we think are important. However, your cover will depend on your circumstances and choices. Full details of your chosen cover will be provided in your policy documentation.

We recommend you keep this brochure with your policy documents for future reference.

## OUR FARM SELECT POLICY

Whether you're a farm owner, tenant or contractor, your agricultural business or holding can face physical risks, such as damage to essential property or livestock by fire, storm or flood.

Such events can significantly interrupt the running of your business and make it difficult to maintain income and manage outgoings.

Other considerations when running a farm business should include your legal liability to the public and employees in the event of an accident, as well as specialist insurance for any diversified businesses or high value livestock and crops you have.

Your local NFU Mutual agent is on hand to work closely with you to identify and manage these challenges.

Our Farm Select policy provides protection for you, your employees and your business assets. From your animals to your outbuildings and more, this policy gives you the flexibility to choose cover to meet the needs of your farm, now and as it grows in the future.

## UNDERINSURANCE

Underinsurance occurs when you don't have the right level of insurance to meet the needs of your business. If it's wrong, it could impact the amount you're paid if you make a claim. You should regularly assess how much insurance you need, to take account of acquisitions or alterations, changes to machinery and equipment, or increases in stock levels. If you're not sure, ask your agent.
