NFU MUTUAL MIXED PORTFOLIO MAX 100% SHARES FUND, CLASS C SHARES: INCOME (SEDOL B7M06Z3) A SUB-FUND OF THE NFU MUTUAL PORTFOLIO FUNDS OEIC

The fund is managed by N.F.U. Mutual Unit Managers Limited, a subsidiary of The National Farmers Union Mutual Insurance Society Limited.

Objectives and investment policy

Objective:

Capital growth (net of fees) over the long term (a period of at least 5 years)

Policy:

- The Fund invests at least 80% and up to 100% of its assets in other funds managed by N.F.U. Mutual Unit Managers Limited or third-party managers. The other funds may be actively managed or may be passively managed (that is funds which track or are closely linked to the performance of a market index) and no more than half of the assets will be invested in passive funds.
- Through its investment in other funds, the Fund will have an exposure to the following asset classes: shares of companies (equities), fixed income securities (such as bonds), money market instruments and cash and near cash. Up to 100% of the assets of the Fund will be in equities.
- The Fund can also invest indirectly in property through other funds which gain exposure to property related securities and through shares, including in real estate investment trusts (REITs) and may also seek exposure to alternative assets (such as infrastructure) through its equity investment.
- The Fund may also invest directly in company shares, fixed income securities and cash and near cash.

- Funds managed by N.F.U. Mutual Unit Managers Limited may use financial derivatives but only for the purpose of efficient portfolio management to reduce risk and cost in the Fund. Third-party managers may sometimes use derivatives for investment purposes but such use is expected to be minimal.
- The Fund is actively managed. The mix of investment types will be managed and regularly monitored by our investment team.
- Many funds sold in the UK are grouped into sectors by the Investment Association (the trade body that represents UK investment managers), to help investors to compare funds with broadly similar characteristics. This Fund is classified in the Investment Association Flexible Investment sector (the benchmark). This benchmark has been chosen as the most appropriate comparator given the funds equity content.

Other information:

- This fund may not be appropriate for investors who plan to withdraw their money within 5 years.
- You can buy or sell your shares in the fund on each working day.
- Income will be paid at the end of March and September.

- Foreign Exchange – fluctuations in currency value may alter the value of the fund's investments.
- Emerging Markets – investments in emerging markets tend to be more volatile.
- Credit – the issuers of debt securities may default on capital or income payments.
- Collective Investment Schemes – investment in other funds may mean additional costs could be incurred by the fund.
