SECTION 2. FUND SWITCH

Use this section to switch funds for your current investment (whole percentages only).

Example, if you want to switch 50% of your investment in the Mixed Portfolio Max 100% Shares Fund into the Deposit Fund you would enter 50% alongside Mixed Portfolio Max 100% Shares Fund in the 'switch from' column, and 100% alongside Deposit Fund in the 'switch to' column.

If your switch relates to the With-Profits Fund:

A market value reduction might apply to a switch from the With-Profits Fund. This is most likely to happen following a large fall in the stock market or after a sustained period of low investment returns. We will contact you before processing this request if this is the case.

If you are switching out of With-Profits series 1 (which has a minimum guaranteed annual bonus rate of 4%) you will be unable to switch back into With-Profits series 1 at a later date.

SECTION 3. REDIRECTION OF FUTURE PAYMENTS

Use this section to redirect your future payments (whole percentages only)

**SECTION 4.
LIFESTYLE SWITCHING
STRATEGY CHANGE**

Applicable for Stakeholder Pension Plans and Personal Pension Accounts only.

Please fill in this section if you wish to amend your previous lifestyle switching decision, or if you now want to choose lifestyle switching.

We offer a choice of three lifestyle switching options that can aid your retirement decision by gradually moving your funds during the five years before your target pension date.

The funds that your investment is switched into are known as target funds. For each strategy details of the current target funds can be found in the latest Key Features Document available from www.nfumutual.co.uk Alternatively, please ring us on 0800 622323 and we can post you a copy.

Annuity lifestyle – for where you intend to buy a guaranteed income in exchange for part, or all, of your pension fund (with or without taking 25% tax free cash).

Cash lifestyle – for where you intend to take 100% of the fund value as cash (of which only 25% is tax free). Selection of this option should be very carefully considered in view of the historical performance of the Deposit fund and current interest rates.

Drawdown lifestyle – for where you intend to transfer to a flexible drawdown policy. You can choose to take up to 25% (a quarter) of your pension pot as a tax-free lump sum. You then move the rest into one or more funds that allow you to take a taxable income at times to suit you.

If you stop lifestyle switching after it has started, any amounts already switched will remain in your chosen funds. If you wish to change this, please fill in **Section 2 above**.

Which lifestyle switching strategy do you want?

None Annuity Cash Drawdown Own choice

If you select ‘Own choice’, please tell us when you would like lifestyle switching to start and your target funds:

SECTION 5.
**NOTES/
SIGNATURE(S)**

Please return all
pages to us.

IMPORTANT NOTES

- A fund switch will use the prices that apply on the date we receive your written request. We have the right to delay a fund switch from the Property Fund for up to 12 months. We may also delay a fund switch from one of the other funds for up to 3 months. If we delay a fund switch we will use the prices that apply for the date it takes place, rather than those which applied when we received your request. We will not delay a fund switch where lifestyle switching has started.
- A redirection of future payments will take effect from the next payment date after we receive your request.

I confirm that I have checked any answers in this application that are not completed in my own handwriting, and they are correct.
