### NFU MUTUAL MIXED PORTFOLIO 40-85% SHARES FUND, CLASS C SHARES: INCOME (SEDOL B837VQ6) A SUB-FUND OF THE NFU MUTUAL PORTFOLIO FUNDS OEIC

The fund is managed by N.F.U. Mutual Unit Managers Limited, a subsidiary of the National Farmers Union Mutual Insurance Society Limited.

#### Objectives and investment policy

##### Objective:

Capital growth with some income (net of fees) over the longer term (5 years+)

##### Policy:

- The Mixed Portfolio 40-85% Shares Fund will invest between 40-85% of the Fund's assets in equity related investments.
- The fund manager will usually invest in excess of 60% of the fund's assets in funds managed by N.F.U. Mutual Unit Managers Limited and third-party funds with compatible or similar objectives. Through investment in these funds, the Fund will gain exposure to UK and international equities with approximately 25% in fixed income stocks (UK and International), and cash.
- The Fund will typically maintain 40%-50% of its exposure to UK companies and 25%-35% in International companies with the balance in fixed income stocks and cash.
- The fund manager has the ability to invest directly in equities, fixed income stocks and cash. The expectation is, however, that the Fund will gain the predominant part of its exposure indirectly through funds.

- The Fund can invest indirectly in property through investment in collective investment schemes which invest in property related securities (including those managed by the Manager) and REITs.
- Foreign currency exposure, through non-GBP (sterling) investments, may be hedged back into GBP at the discretion of the fund manager.
- The Fund may use financial derivatives but only for hedging or efficient portfolio management purposes.
- Many funds sold in the UK are grouped into sectors by the Investment Association (the trade body that represents UK investment managers), to help investors to compare funds with broadly similar characteristics. This Fund is classified in the Investment Association Mixed Investment 40-85% shares sector (the benchmark). This benchmark has been chosen as the most appropriate comparator for the Fund.
