

NFU MUTUAL SHREWD SAVINGS PLAN ISA

Personal Illustration

Date: 03 January 2025

NFU Mutual Shrewd Savings Plan ISA

The Financial Conduct Authority is a financial services regulator. It requires us, NFU Mutual, to give you this important information to help you to decide whether our Shrewd Savings Plan ISA is right for you. You should read this document carefully so that you understand what you are buying, and keep it safe for future reference.

This is an illustration of what your plan might be worth. Please read this illustration together with the Key Features Document. This also contains important information about the product benefits, charges, risks and tax, as well as your rights and commitments. You will be sent yearly statements to enable you to keep track of your investments. IMPORTANT: The value of investments may go down as well as up. You could get back less than you invest. The figures below are only estimates, and are based on certain assumptions which may or may not turn out to be correct.

Payments into your Shrewd Savings Plan ISA

| Payment Type | Amount | Frequency | Payment/Start Date |
|--------------|--------|-----------|--------------------|
| | | | |

Lump Sum £10,000.00 One-off 03 January 2025

The maximum you can pay into your ISA in the current tax year, other than ISA transfers from previous years, is £20,000.00.

Where will your payments be invested?

| Fund(s) | Lump Sum |
|------------------------------------|------------|
| NFU Mutual With-Profits (Series 4) | £10,000.00 |
| Total investment | £10,000.00 |

What you might get back

The Financial Conduct Authority (FCA) requires all companies to illustrate how your investment might grow using growth rates of 2%, 5% and 8% for each fund unless they believe that lower rates are more appropriate for any of the funds you have selected. The difference between the lower rate and the middle rate, and the middle rate and the higher rate is fixed at 3% for each fund. These rates of return are not guaranteed and could be higher or lower. As there is no fixed date when your ISA is due to end, this section shows what you might get back over the next 10 years.

| | Example yearly investment performances | | |
|------------------------|--|---------|---------|
| | 2.0% | 5.0% | 8.0% |
| At the end of 1 year | £10,000 | £10,300 | £10,600 |
| At the end of 2 years | £10,100 | £10,700 | £11,300 |
| At the end of 3 years | £10,100 | £11,100 | £12,100 |
| At the end of 4 years | £10,200 | £11,500 | £12,800 |
| At the end of 5 years | £10,300 | £11,900 | £13,700 |
| At the end of 6 years | £10,300 | £12,300 | £14,600 |
| At the end of 7 years | £10,400 | £12,800 | £15,600 |
| At the end of 8 years | £10,500 | £13,200 | £16,600 |
| At the end of 9 years | £10,600 | £13,700 | £17,700 |
| At the end of 10 years | £10,600 | £14,200 | £18,800 |

Important notes about the projections

- The growth rates are not guaranteed. They are not minimum or maximum amounts. What you get back will depend on what you make on your actual investments. That could be more or less than the figures shown in the projections, and could be less than the amount(s) paid in.
- Charges have been assumed to remain the same as they are today, but may vary in the future.
- It is very important to understand that the figures shown above do not take account of Inflation. This means that what the fund will be worth in the future could be less than it is today. For example, if we assume that inflation is 2.0% each year, £1,000 today will only be worth £820 after 10 years and will have dropped in value to £672 after 20 years.

The charges for your plan

The charges for operating your plan are described below. They comprise of:

• The charges for managing your plan and the money in your funds

The way these charges are paid is explained in your Key Features Document

The charges

For managing your plan and funds

The ongoing charges may vary in the future and include the annual product charge and an
estimate of any additional fees charged by the fund manager. The illustrated charge is
1.33% a year.

Commission and remuneration charges

NFU Mutual Select Investments Limited (a member of the NFU Mutual group of companies) receives payment from NFU Mutual Insurance Society Limited of £350 for remuneration and services in arranging this plan. This is funded from the product charge and is not an additional charge.

How charges reduce the value of your Shrewd Savings Plan ISA fund

The following table shows you the potential effect of charges on your investments using the middle growth rate shown above in the table under 'Example yearly investment performances'.

All providers have to give you this information to help you compare their charges.

| | | What you might get back | | |
|----------------|---------------------|-------------------------|---------------|--|
| | | | After product | |
| At end of year | Payments to date | Before | and | |
| | | charges are | investment | |
| | | taken | charges are | |
| | | | taken | |
| | £ | £ | £ | |
| 1 | 10,000 | 10,500 | 10,300 | |
| 3 | 10,000 | 11,500 | 11,100 | |
| 5 | 10,000 | 12,700 | 11,900 | |
| | | | | |
| 10 | 10,000 | 16,200 | 14,200 | |
| | | | | |

In percentage terms the reduction from £16,200 to:

• £14,200 means that our product and investment charges will reduce the yearly growth rate as follows:

for lump sums invested to 3.6%, a reduction in growth of 1.4%.
